

Burrito Method Pillowcase

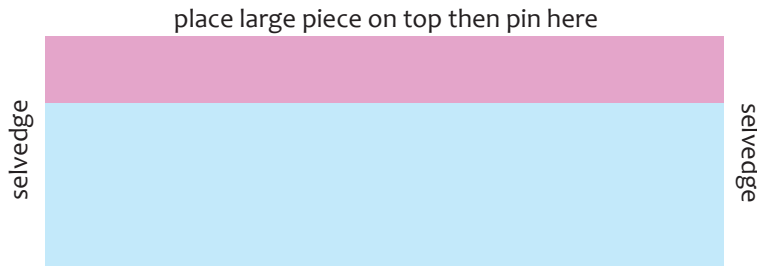

using a serger

CUT

1 piece 24" by WOF

1 piece 2" by WOF

1 piece 12" by WOF

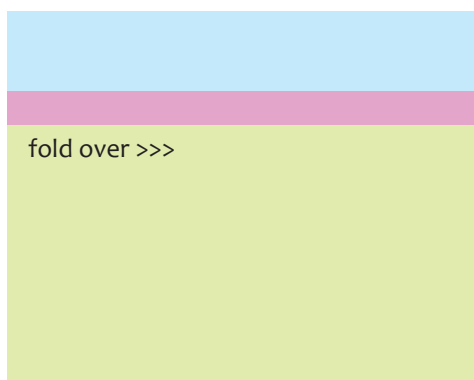

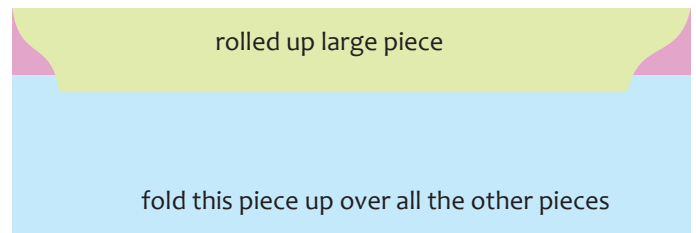

Step 1: Press the smallest piece in half lengthwise.

Align both raw edges with one raw edge of the medium piece, right sides together. Then place the largest piece right sides together on top of these pieces and pin along the top.

Step 2: Roll up the largest piece so that you can fold up the medium piece around it to join the raw edges at the top with pins.

Using a serger, sew along the pinned edge. You are sewing through five layers.

Reach your hand inside the tube and pull out the largest piece. Press well. Trim selvedges.

Step 3: Fold the pillowcase in half right sides together so that the two edges of the smallest piece come together at the sides. Pin the spot where they come together. Using a serger, sew along the side of the pillowcase. Then sew along the bottom of the pillowcase. Press well.
